FOR IMMEDIATE RELEASE

Press Release: New Hire

Elkhorn, WI, September 4, 2020

Tom Getzen, President of Allied Supply Corp. is pleased to announce the hiring of Timothy Douglass as a Parts & Repair Specialist. For the last few years, Tim has been with Conn-Selmer in Elkhart, Indiana, working as a Repair Parts Specialist. He brings a great breadth of professional experience across the band instrument repair industry. Tim is a familiar face to many, having received his repair training at Renton Technical College in Renton, Washington. Over the last ten plus years, he has worked at large and small shops, including a stint with NAPBIRT. We are thrilled that he and his wife have chosen to move to Wisconsin and begin what we hope is a long tenure with us, here, at Allied. We are confident that Tim's hire will help facilitate Craig Anderson's impending retirement and desire to live in Arizona with his wife, a retired 3rd-grade teacher. We hope to provide a smooth transition for our customers, without compromising our commitment to having a knowledgeable, professional technician available every day.

Please join us in welcoming Tim to the Allied family!

About Allied Supply Corp.

Founded by the Getzen family in 1967, Allied Supply is a wholesaler that exists to serve the professional band instrument repair industry. Allied's inventory includes over 12,000 unique items, including parts for over 25 manufacturer brands and hundreds of instrument models. Allied sources, develops, and stocks innovative tools and supplies to help professionals in the field service brass and woodwind instruments in 56 countries on six continents.
